3.(a)The battle

Helmet and rifle, pack and overcoat

Marched through a forest, somewhere up ahead
Guns thudded. Like the circle of a throat
The night on every side was turning red.

They halted and they dug. They sang like moles
Into the clammy earth between the trees
And soon the sentries, standing in their holes,
Felt the first snow. Their feet began to freeze

Then shells and bullets swept the icy woods.

The corpse stiffened in their scarlet hoods

Most clearly of that battle I remember
The tiredness in the eyes, how hands looked thin
Around a cigarette, and the bright ember
Would pulse with all the life there was within

COMPREHENSION

INFORMATION SYSTEM ANALYSIS

Prof Atieno Ndede-Amadi the head of the university's school of Business at Technical University of Kenya (TUK) and associate professor of information systems and accounting, has embarked on a crusade to convince her peers of the need to introduce information systems (IS) analysis as a complete academic programme. She believes that the course would benefit young people interested in IT, as well as local enterprises that have had to rely on expatriates with the skill.

Prof Atieno's concern arises from her own study. She established that despite a high demand for information system analysts there weren't many Kenyans specially trained for the job.

As such, companies were hiring outsiders as local universities continued to concentrate on broad range computer science and programming courses, and failing to give much thought to IS analysis.

Information system analysts are trained to evaluate and develop technology systems to help business to run optimally. They identify user and consumer needs and translate them into technology solutions. Despite this critical function, there aren't many people called IS analysts in the local market, and that's because the universities here have not been keen to train in this specialization.

"A wide systems analysis skills gap exists in the country due to the absence of strong information system academic programs in local universities." Prof Atieno states in her study report which is titled," Information Systems Education in Kenya: Students Specialization Choice trends." The work has been published in the International Journal of Education and Development using Information and communication Technology (IJEDICT). The study found that of all the 32 public universities and university colleges studied, none offered an information systems or management information systems degree. Only two degrees came close with four institutions offering a Bachelor of Technology (Business Information Technology) degree in varying combinations, and one university offering a Bachelor in Business Information and Management.

Prof Atieno says that if both students and university heads fully appreciated the value of information systems analysis, they would be more focused on it as an area of study. She actually established in her study that the supply gap of people with the skill is largely a result of ignorance. Globally, a majority of IS programs within

universities are located in business schools, and they have names such an information systems, management information systems, computer information systems, business information systems, or business information technology. An IS degree programme combines business and computing topics, with the emphasis on technical and organizational issues varying from one programme to another, and also from one academic institution to the next. Generally, it bridges business and computer science, using the theoretical foundations of information and computation to study various business models and related algorithmic process within the computer science discipline.

According to Prof Atieno, organizations cannot effectively and efficiently do business without solid IS setups for connecting systems within as well as with its supply chain stake holders, such as vendors and distributors. Yet, many students aren't aware of the possibility of a career in this field. In fact, the study found that only 11% of those interviewed knew about IS analysis as a possible area of specialization. "An Information system as an academic discipline seems to be largely unknown to high school students in Kenya, making it impossible for them to select it as an area of specialization in their university education," it states. The net effect is that the level of IS education in the country has suffered, resulting in a deficiency in systems analysis and related skills.

A DOLLS HOUSE

Read the excerpt below and then answer the questions that follow.

Nora. What right have you to question me, Mr.Krogstad?–You, one of my husband's subordinates! But since you ask, you shall know. Yes, Mrs. Linde is to have an appointment. And it was I who pleaded her cause, Mr. Krogstad, let me tell you that.

Krogstad. I was right in what I thought, then.

Nora (*walking up and down the stage*). Sometimes one has a tiny little bit of influence, I should hope. Because one is a woman, it does not necessarily follow that–. When anyone is in a subordinate position, Mr. Krogstad, they should really be careful to avoid offending anyone who–who– **Krogstad.** Who has influence?

Prefer Calling Amobi Group of Examiners @ 0743 333 000 or 0706 851 439 for Marking Schemes

Nora. Exactly.

Krogstad (*changing his tone*). Mrs. Helmer, you will be so good as to use your influence on my behalf.

Nora. What? What do you mean?

Krogstad. You will be so kind as to see that I am allowed to keep my subordinate position in the Bank.

Nora. What do you mean by that? Who proposes to take your post away from you?

Krogstad. Oh, there is no necessity to keep up the pretence of ignorance. I can quite understand that your friend is not very anxious to expose herself to the chance of rubbing shoulders with me; and I quite understand, too, whom I have to thank for being turned off.

Nora. But I assure you–

Krogstad. Very likely; but, to come to the point, the time has come when I should advise you to use your influence to prevent that.

Nora. But, Mr. Krogstad, I have no influence.

Krogstad. Haven't you? I thought you said yourself just now–

Nora. Naturally I did not mean you to put that construction on it. I! What should make you think I have any influence of that kind with my husband?

Krogstad. Oh, I have known your husband from our student days. I don't suppose he is any more unassailable than other husbands.

Nora. If you speak slightingly of my husband, I shall turn you out of the house.

Krogstad. You are bold, Mrs. Helmer.

Nora. I am not afraid of you any longer. As soon as the New Year comes, I shall in a very short time be free of the whole thing.

Krogstad (*controlling himself*). Listen to me, Mrs.Helmer. If necessary, I am prepared to fight for my small post in the Bank as if I were fighting for my life.

Nora. So it seems.

Prefer Calling Amobi Group of Examiners @ 0743 333 000 or 0706 851 439 for Marking Schemes

Krogstad. It is not only for the sake of the money; indeed, that weighs least with me in the matter. There is another reason–well, I may as well tell you. My position is this. I daresay you know, like everybody else, that once, many years ago, I was guilty of an indiscretion.

Nora. I think I have heard something of the kind.

Krogstad. The matter never came into court; but every way seemed to be closed to me after that. So I took to the business that you know of. I had to do something; and, honestly, I don't think I've been one of the worst. But now I must cut myself free from all that. My sons are growing up; for their sake I must try and win back as much respect as I can in the town. This post in the Bank was like the first step up for me–and now your husband is going to kick me downstairs again into the mud. **Nora.** But you must believe me, Mr. Krogstad; it is not in my power to help you at all. **Krogstad.** Then it is because you haven't the will; but I have means to compel you.

UFAHAMU (ALAMA 15)

Soma kifungu kifuatacho kasha ujibu maswali yafuatao:-

Pengine mwandishi Goerge Orwell alikuwa na maono ya jinsi mataifa mengi ya Kiafrika yangekuwa pindi baada ya kujinyakulia uhuru, alipoandika riwaya ya 'Shamba la wanyama.'

Riwaya hiyo inaakisi hali halisi ya mataifa haya, Kenya ikiwemo, ambapo imejikita katika dhihirisho la jinsi ujenzi wa matabaka ya kitawala, ubinafsi na ukandamizaji wa wananchi, unavyoweza kuzua maasi na hatimaye mapinduzi ya uongozi ulio mamlakani.

Baada ya kuwaambia wanyama kuhusu maono aliyokuwa nayo ya ulimwengu ambao kila mmoja angeishi huru, nguruwe mmoja anayeitwa Old Major, alijenga ari ya wenzake ili kushinikiza ndoto yake, kwa kuandika amri saba ambazo zilihakikisha kuwa rasilimali zote katika shamba hilo zingegawanywa kwa kila mmoja.

Lakini haya yote hayakuzingatiwa muda mfupi baadaye kwani ubinafsi uliokithiri ulichakachua amri hizo na kusambaratisha mfumo wa uongozi katika shamba hilo. Hali hiyo ndiyo tunayoshuhudia kwa sasa, wananchi wanapoandamana katika majimbo mbalimbali kulalamikia 'kodi mpya za maendeleo' zinazoanzishwa na serikali hizo. Huu ndio mkasa wa ubepari, uliojificha katika mfumo kandamizi wa ugatuzi, ambao kwa wazo langu,hatukuwa tumejitayarisha kabisa kuuanzisha.

Tumegatua kila aina ya uovu, umero na wizi. Tulilolisahau ni kuwa 'magavana' hawa tulioamka mapema kuwachagua walikuwa viongozi wale wale waliokuwa wakihudumu katika serikali za hapo awali, na hawakuwa ',miungu wa ukombozi kama walivyotupulizia baragumu zao walipokuwa wakitunadia kila aina ya 'ahadi' wakati wa kampeni.

Kwani ufisadi ndio umekithiri uovu mwingine tulioagatua ni ukabila. Kwa sasa, tofauti zilizopo si za kumchukia Mkikuyu au Mturkana akihiana na Mluo. Kila jamii kwa sasa zinaona wenzao kwa misingi ya kiukoo.

Mathalani, mzozo wa uongozi jimboni Embu unaelezwa 'kuchochewa' na tofauti za uwakilishi kati ya jamii za Waembu na Wambeere. Hapo awali, hatungesikia 'mikataba' kama hii! Huu ni moto uwakapo, kama si safari ya kuzimu tunayoelekea!

Kwani vita vya kikabila havitasikika tena, bali mafarakano yatakayochukua nafasi yake ni 'mizozo ya kiukoo, ambayo katika majimbo yote 47 ni mkasa kama si saratani tuliyojiambukiza.

Ikiwa hatutatahadhari, huenda tukashuhudia maasi ya kiukoo katika nchi ndogo 47' – na kizungumkuti kitakuwa jinsi ya kuyazima, kwani kila koo 'likipigania nafasi yalo.'

2. MUHTASARI

Uhaba wa nafasi za kazi unaeendelea kushika kasi, nayo serikali inatoa wito kwa watu wa matabaka mbalimbali kujibidiisha kujiajiri badala ya kungojea kazi za ajira kutoka kwa mashirika mbalimbali.

Hata hivyo, ingawa hili ni wazo nzuri, utapata kwamba kuna vikwazo mbalimbali vinavyowafanya watu kutotaka kuanzisha biashara zao ndogondogo . Ingawa kuna
Tumaini kuwa uchumi wa nchi umeanza kukua, baadhi ya watu hawataki kujijasirisha kuanzisha biashara zao kwa hofu ya kutofaulu.

Wengi wanaogopa kuwekeza pesa zao kwenye biashara ambazo huenda zisiwafaidi katika siku za usoni. Ingawa kuna wale wangetaka kuanzisha viwanda vyao vidogovidogo, kuna tazizo la ukosefu wa pesa za kununulia mtaji.

Vijana wengi wanaotaka kubahatisha katika upande huu hujipata wakiwa hawana hata hela za kununulia vifaa, sikwambii kulipia kodi ya nyumba za kufanyia kazi. Hali hii inazidishwa na tatizo la kupata mikopo kwani hawana wadhamini.

Prefer Calling Amobi Group of Examiners @ 0743 333 000 or 0706 851 439 for Marking Schemes

Hakuna atakayewaamini kiasi cha kuwapa mikopo. Aidha, katika miaka ya hivi majuzi mashirika ya kutoa mikopo yamekuwa yakidai riba kubwa mno kwa wadeni wao. Jambo ambalo huwafisha moyo wawekezaji wadogowadogo . utapata kuwa hata wale ambao tayari wameanzisha biashara zao hawawezi kuzipanua kwa sababu ya riba kubwa zinazotozwa na mashirika haya.

Baadhi ya watu hudharau kazi za kujiajiri, hasa zile za mikono, wakidai kuwa hazina pato nono. Kwa mfano ukimwambia mwanamke aanze kazi ya ususi wa vikapu, labda atasema kuwa hiyo ni kazi duni, ya pato duni na atahiari kuendelea kusagika kwa shida badala ya kufanya kazi anayoiona duni. Wengine huona kuwa itachukua muda mrefu kwa biashara hizo kuanza kuleta faida na kuweza kufidia kiasi cha pesa walizotumia kuzianzisha.

Watu wengine huona vigumu kuanzisha biashara ndogondogo kwa sababu ya kuchelea kulipa kodi. Kuna wale wanaoona kuwa kodi watakazolipa kwa serikali ni kubwa sana na hawataweza kuzimudu. Nao ushindani kutoka kwa mashirika ambayo tayari yamestawi huwafisha moyo wafanyabiashara wadogo wadogo. Wengine hulazimika kufunga biashara zao na kubahatisha kwingine. Tatizo la ukosefu wa masoko ni kikwazo kingine.

Kabla ya kuanzisha biashara, mtu hana budi kuwa na soko kwa bidhaa zake. Hata hivyo, utapata kuwa baadhi ya watu hukosa masoko kwani wateja wao huhiari kununua bidhaa kutoka ng'ambo au hata mashirika makubwa ya humu nchini. Jambo hili huua biashara ndogondogo. Kwa mfano, soko la mafundi wa juakali si pana kwa sababu ya wananchi wengine kudharau bidhaa zao.

Usalama ni jambo muhimu sana kwa ufanisi wa biashara yoyote ile. Watu wengi hawataki kuthubutu kuanzisha biashara zao kwa sababu ya ukosefu wa usalama. Katika mitaa ambayo kodi si ghali, kuna visa vingi vya wizi na ujambazi ambao huwafanya watu wengi wasianzishe kazi zao huko.

Serikali ina dhima ya kuwashawishi wananchi kujiajiri ili kupunguza tatizo la uhaba wa nafasi za kazi. Ili kufikia lengo hili, viongozi wanapaswa kuwapa vijana mikopo
yenye masharti nafuu. Aidha ni wajibu wa serikali kuhakikisha kuwa vijana hawa wametozwa kodi nafuu.
Serikali pia inafaa kuwalinda wafanyabiashara wadogowadogo dhidi ya ushindani mkali kutoka kwa bidhaa za kuagiza kwa kuzitoza ushuru mkubwa bidhaa zinazoingia nchini.
